ABSTRACT

Statistical data are presented on tuitions and required fees at New Jersey colleges and universities for academic year 1978-79. Full-time undergraduate tuitions and required fees are provided for two-year, four-year public, and four-year independent colleges, and full-time graduate tuitions and required fees are provided for public, independent, and professional colleges. Similar information is provided for part-time undergraduate and graduate tuitions and required fees. Data are also provided on average tuition and fees by sector for academic years 1977-78 and 1978-79. The average tuition for the community colleges is based on "in-county tuition" data, and the average tuition for all other colleges is based on "in-state tuition" data. New Jersey's average increases in undergraduate tuitions and fees are also compared with national data. (SW)

D.H.E. RESEARCH NOTES

AVERAGE FULL-TIME TUITIONS AND FEES IN NEW JERSEY

A comparison of average full-time undergraduate tuition and fees (combined) for New Jersey residents, by collegiate sector between 1977-78 and 1978-79, shows an increase in all sectors: 3.5% at the community colleges, 3.2% at two-year independent colleges, 0.6% at the state colleges, 2.3% at Rutgers/NJIT, and 11.3% at four-year independent colleges. In the case of Rutgers and the state colleges, all increases are due to higher fees since there are no tuition increases in these sectors. In contrast, the average fees for community colleges decreased by 8.2%, but tuition increased by 5.0%. Increases at the independent colleges are a result of increased tuition and fees.

To make the following comparisons between U.S. and N.J. undergraduate tuition and fee increases, national data were obtained from "Student Expenses at Postsecondary Institutions 1978-79," published by the College Entrance Examination Board:

Two-Year Public Colleges - New Jersey's average increase of 3.5% is below the U.S. average increase of 4.9%.

Four-Year Public Colleges - The State increase of 1.5% (which includes state colleges, Rutgers and NJIT) is far below the national increase of 4.8%.

Two-Year Independent Colleges - The State increase of 3.2% is below the national increase of 6.5%.

Four-Year Independent Colleges - New Jersey's increase of 11.3% is considerably higher than the U.S. increase of 6.9%.

Averages are calculated from data presented in Tables I and II on the following pages. The average tuition for the community colleges is based on "in-county tuition" data. The average tuition for all other colleges is based on "in-state tuition" data.

*Does not include College of Engineering, College of Pharmacy or School of Creative Arts. Fees for these schools are determined by college of affiliation (i.e. Cook, Douglas, etc.).

The two-year comparison of full-time graduate tuition and fees (combined) for New Jersey residents also shows an increase in all sectors: 0.5% at the state colleges, 1.9% at Rutgers/NJIT/CMDNJ, and 5.1% at the independent colleges. As with the undergraduate comparison, increases at Rutgers and the state colleges are a result of higher fees rather than higher tuition. Increases at the independent colleges, however, are due to increases in both tuition and fees.

The chart below (as in Table III) includes CMDNJ's Graduate School of Biomedical Sciences, but does not include tuitions and fees at the first professional level (i.e. dental, medical, and law schools).**
